Advantages of EEI Compliance Audit Protocols

1. Custom-Tailored to Your Operations

EEI provides Audit Protocols to meet client specific objectives and criteria for industry/facility issues on demand individually. It can be purchased tailored-made to the specific needs and activities for industry. We will address any particular regulatory questions that are brought to our attention when you place the order. We make Audit Protocols update annually. We can update more than once a year on demand. This is part of the custom-tailored protocol that is geared for your industry and facility.

2. Detailed Background Info and ESH Topics Included

EEI Audit Protocol comes with 3 Books.

Book 1 which is also called Regulatory Summary, provides the general reference information for regulatory framework. It covers general information of the country, overview of environmental regulation and occupational health and safety regulatory framework. It can be purchased without a license for a small fee.

Book 2 is about environmental regulations. The checklist has the regulatory citations as well. It covers Environmental Management System (EMS), General Permitting, Air Emission and Pollution, Waste Management and Recycling, Water Resources and Water Pollution, Water Resources and Drinking Water, Chemical Management and Spill Prevention, UST, AST and other Storage Facilities, Soil and Groundwater, Ozone Depleting Substances (ODS), Transportation and Packaging, MSDS, Product Registration, Polychlorinated Biphenyls (PCBs), Asbestos, and EU legislation (WEEE, RoHS, GHS).

Book 3 covers Safety and Health topics. It covers Health & Safety Management System, Fire Safety, Contractor & Construction Safety, Noise and Vibration, Machine, Equipment, and In-Plant Safety, Electrical Safety and Welding, Confined Space Entry and Permit Work, Industrial Hygiene, Medical surveillance, Ergonomics and Material Handling, Ventilation, and Personal Protective Equipment (PPE) and Respiratory Protection. Some countries have additional topics such as Compressed Gas Management, Process Safety Management etc.

3. English ONLY and Bilingual Versions

EEI provides Audit Protocols in English Only and Bilingual versions. The bilingual version prevents misunderstanding and includes the same content.

4. Regulatory Citation

In addition to the lowest level regulatory citation for each audit question, we provided reference files that provide further explanation, list of items to inspect, or explain any exemptions that may apply. It is a good summary and on some occasions a verbatim translation of the regulatory language. There are some hyperlinks if deemed essential to visit the site where the public authorities have provided the information.

5. User Friendly Format

Questions are in hierarchical format so that only application audit questions are reviewed. The cover page of each topic provides a list of subtopics and all applicable reference files and list of regulations to provide an overview by topic. The PDF version is available for your printing.

6. Licensed for Use by Anyone in Your Company

The protocols are used by corporate auditors, by site management for annual self assessment, and also by facility ESH team as a reference to manage their facility in compliance. With a bilingual version, the local facilities can use it more effectively for everyday operation and also to audit their suppliers and toll manufacturers.

7. ON-going Support

Our protocol authors are also available to accompany the client's audit team to the facility to assist with the audit services or available by phone to respond to any questions on the protocol.

8. Competitively priced

The multiple versions are a must for countries like China, Brazil and Australia. The multiple versions and annual updates are priced at \$2,500 for English Only and \$3,500 for Bilingual protocols. There is an initial license for each country which is \$5,500 for English only and \$8,500 for Bilingual versions. *Occasionally we will do a promotion for the Initial license of the Bilingual version for \$6,500. Please ask about these promotions.*

9. Client References for EEI Audit Services and Compliance Audit Protocols

EEI has been providing global audit services and compliance audit protocols since 1995. Our reputation has grown through word of mouth client reference. We can provide you a list of our license members upon request.

10. Global Coverage

EEI Global Network of Expert ESH auditors have worked with EEI corporate team to create these protocols. The list below provides the protocol countries we currently have or planned for Year 2010, and we can add more countries on demand where we have our EEI global network ESH team coverage which is worldwide.
